

EFPIA Oncology Platform: potential areas for collaboration on clinical trials

Author: Vincent Clay * **Date:** 10/07/2018 * **Version:** Final

Possible collaboration on clinical trials

Survey results:

- Interest in seeing EFPIA position on clinical trials (due end 2018), especially patient representative input to trial design; interest in info sharing more generally
- Interest in issue of cross-border recruitment challenges, including
 - Reimbursement of regular medical costs
 - How patients can find relevant trials

Suggested approach:

Decisions:

- Would you find it useful to proceed on these topics? (How prioritise?)
- Would you like to be directly engaged in shaping the work?
